If you need to make changes to your child's regular afternoon transportation plan, please send an updated copy of this plan to the school front office. For safety reasons, we will not change your child's transportation plan without written documentation. If alternative transportation plans arise on short notice, please notify the school front office by 11:30 a.m. the day of the change. Bus space on alternative routes for that day will be considered, if space allows.
