**Notes from meeting:**

Discussion about the 7 period modified block schedule that has the most momentum right now.

Conversation around moving this schedule forward to the executive team to discuss more, and share with middle school principals (meeting on Thursday 9/11). Steve will be on point with the middle school work group on schedules, helpful to be the common thread.

Suggestion about moving two different 7 period modified block schedules forward, each participant went around the table to share thoughts on this. Most wanted one schedule only, a few wanted two. Steve will move the one schedule forward and still have a second to discuss if needed.

This committee is done meeting now, we will wait for decision on how to elicit parent and staff feedback.
