

Minutes Meeting #2
Alderwood/Parkview Elementary School
Ed Spec/Design Advisory Committee
Thursday May 31, 2018

Micah Smith welcomed the Alderwood and Parkview joint committee group back together. The minutes from the previous meeting on May 17 were reviewed and approved.

Micah shared the revised committee meeting schedules for both groups, and dates and times for the Alderwood and Parkview Community Meetings. Letters inviting the public to attend the community meetings have been mailed to the neighborhoods. The Parkview Community Meeting is scheduled for June 6 and the Alderwood Community Meeting, June 7.

Ron thanked everyone for their attendance and time studying the [Narrative Program](#) and [Detailed Space Requirements](#) in the homework packet.

Kelli Smith from Dykeman reviewed each section of the [Narrative Program](#) and the [Detailed Space Requirements](#), with the group providing questions, comments and suggestions in the following areas:

- Preschool/Kindergarten Classrooms
- General Classrooms
- Learning Resource Center (Library)
- Gym
- Cafeteria/Music Classroom/Stage
- Covered Play Area/Playground

Ron appreciated the great feedback and thanked the group for coming prepared, reading the homework and bringing comments. He stated information gathered from the group will be documented and the architects will return with a revised Narrative Program and Detailed Space Requirements reflecting the committees' comments and suggestions.

Micah thanked the group for their participation, adding we are wrestling with abstract ideas and diagrams, which can be confusing. This is part of the hard work of the process, but helps us better participate when the design development gets a little more concrete. It will be more exciting from here and will begin to make more sense.

The next joint committee meeting will be at Whatcom Middle School in the library, Thursday, June 7 from 3:00p.m.-5:00p.m.

Meeting adjourned 5:00p.m
