

Visioning Process for the New Sehome High School

Thanks to voters who approved a bond to fund school facilities projects in November 2013, Sehome's students and our community will benefit from an outstanding place to discover and develop a passion for learning as part of The Bellingham Promise, our strategic plan.

Our first step is to engage our students, staff, parents and community members in a process to brainstorm hopes and dreams for a new Sehome. Here are the ways to share your thoughts:
