

Parkview Elementary School Neighborhood Meeting Thursday June 6, 2018 Meeting Minutes

General Information

\$27M Project Budget
Open no later than Fall of 2021 (goal is earlier if possible)
Maintenance and durability
2-story
55,000SF Total
6,500SF Gym
Safety and Security Improvements
3 Classrooms per Grade

Neighborhood Input

Pro Comments:

Large open field
Sense of intimacy, low, not massive
Keep K, 1, 2 away from 3,4, 5
Connection to park
Garden
Cozy
Intimate
School is generational, family

Con Comments:

Intersections – Can school zone be 3 blocks out?
Helipad at the hospital – noise, safety
Mitigate potential crash impact
Traffic flow is an issue – keep it moving. Focus on safe walking and biking to school
Open ditches – don't like those

General Comments:

Open space
Additional parking overall
Make it easy to find your way around
Create a traffic drive thru to keep traffic moving
Traffic is huge – can we partner w/the City to make offsite improvements?
Build space for more art
Make sure it fits in the neighborhood – not a tall, all glass structure
Coziness
Stone, natural materials vs. steel

**Parkview Elementary School
Neighborhood Meeting
Thursday June 6, 2018
Meeting Minutes**

Landscaping to match neighborhood
School should blend into the neighborhood
Is there a way to consider the scale so the two-story is not so looming?
Many windows
Entry to be large, inviting and yet maintain security
A way to incorporate some sort of "nod" to the former building
Include trees as much as possible
Classrooms having a view of the park
Use a vault for stormwater rather than pond
Operable "garage doors" bring the outside in, create an open feel
Solar panels
Natural light
Bring drop-off areas close together
Provide short-term parking for parents to bring their kids into school
Good ventilation
Alternatives to fluorescent lighting
