Social-Emotional
Tier 1 Social Emotional Learning curriculum at ES gives students consistent language & tools.
New to MS & HS.
Youth mental health is key area of community concern & focus.

Communication
Individual Student Learning Plans:
Meet individual student needs
Foster communication b/t student & teacher
Allow for differentiation
Important to know if student has one, how to access, how to revisit
High School & Beyond Plan might be a great tool for MS & HS students

Services & Professional Development
SLPs drive differentiation.
ES: services & differentiation PD is most consistent
MS: assessment is consistent, services are evolving
HS: variety of classes & activities meet more individual needs; differentiation would still be appreciated (and is largely unperceived).

Family support:
School-family & family-to-family connection critical to student wellbeing
**Communication**

**Students**

“What is an SLP?”

“I’d like to see it/revisit it more often”

“I want more challenging work”

“I like setting goals”

“I would like my teachers next year to know me. I want them to know who I am and what works for me.”

“It’s good to set goals. I like knowing where I’m heading. Know what you are working for.”

**Parents**

Want to understand the SLP

“Is my child in a special class?”

“What is the SLP?”

*Acknowledgment that as SLPs are individualized, so are the communication needs of families:*

“I believe this needs to work for the families and each family has different needs. It should be up to the teacher to make sure they are communicating in a way that works for all parties. One approach will not work for all.”

**Teachers**

Request time to meet to create & revisit the SLP.

“Communication as needed on a student by student basis.”

**Current Tool: Student Learning Plans**

**Growing Forward: Role of High School & Beyond Plans**
Services

At all levels:
1. Desire for increased understanding & practice of differentiation
2. Appreciation for transparent process for identification, acceleration
3. More challenging work vs. busy work or more work

**Elementary**
- All parents had examples of support & services
- Unified request for more differentiation
- PD request: build teachers’ skills to differentiate
- Focus on SEL for students

**Middle**
- 60% of parents can’t provide example of support
- SLPs, Future Problem Solvers, compacted math
- Increase understanding of psychology of students identified as highly capable
- Increase SEL supports for students

**High**
- 23% of parents can’t provide examples of support
- Choice in schedule opens up possibilities (learning pathways like Running Start, AP)
- Little differentiation perceived in HS classes
- More teachers understanding of student-based and project-based learning
- SEL for students
Family support:

- Family-school connection
- Family-to-family connections
- How do we welcome families new to the community?
Social-Emotional Health

Students identified as highly capable likely benefit from increased & specific mental health supports.

CARING SCHOOLS

**Elementary**
- Social-emotional curriculum adopted district-wide
- Professional development ongoing
- Leads to consistent language around emotions & social needs: quotes from 3rd-5th grade students refer to classroom learning

**Middle**
- New adoption of SEL curriculum
- Includes PD for staff
- Consistency in language & skills for students is still emerging: quotes from our middle schoolers split between skills learned at school vs. learned at home.

**High**
- Inconsistent language & attention to SEL
- Transition from middle to high school is challenging academically and socially
- Increased risk to youth mental health, especially for vulnerable populations

---

**“I just suck it up”**

**“I work with my therapist outside of school”**

**“None of this information or preparation was presented to me, as a person who really needed it.”**

**“When I’m faced with an issue I like to use a method that my teacher taught me-- to not flip my lid.”**

**“my older brothers have taught me over the years how to not be socially awkward and how to work hard”**

**“We have a chart for moods and what to do in them.”**

**“Oftentimes when I am feeling too challenged, I get very frustrated. I throw a fit.”**

**“I’m socially ‘typical’”**

**“I want friends.”**
